By the way, I LOVE your website. Just spent the last 30 minutes exploring some of the presentations. What if any VC's have assisted your growth in years past? What if any push back has your attempts at additional funding encountered?

Best Regards

Craig

Hi,
Everybody did a great job. I'm very happy with the results. We had to get more involved on the transmission but using a video camera it's a great choice. We get better resolution and we are able to zoom and move the camera. Thank you very much to all of you for the support and being there for us. I think that we should start planning the strategy for next year.
